

**FIRST BAPTIST** church  
pflugerville  
loving God loving you

Dr. Steve Washburn, Pastor

August 10, 2010

To Whom It May Concern,

This letter is to affirm and endorse the character, experience and expertise of Charlie Lewis and his company, T & K Dry Wall.

Acting as our own contractor in the construction of our new worship center located at 801 W. Pecan Street here in Pflugerville, it was important for us to find subcontractors who would deliver the highest quality work at the most economical price with the greatest degree of commitment and dependability. Our dry wall contract was especially important to us because of the unusual, "curved wall" design of our vast mall area and because the searching eyes of more than 1,200 members would observe and evaluate the workmanship of our 2,000 seat sanctuary every Sunday morning during our two worship services.

In addition to delivering excellent finished work on our large and difficult job, T & K Dry Wall consistently displayed a high level of professionalism and finished their contract ahead of schedule.

On a personal note, I have known Charlie and Patricia Lewis since October, 1999. They are two of the most highly regarded members of our church. They have both served in several leadership roles over the years (they are currently youth teachers and Charlie is an active deacon) and are loved and respected by all who know them.

Although Charlie's work (and that of T & K Dry Wall) speaks for itself, I know I represent the entire congregation of First Baptist Church in giving him our highest and most appreciated endorsement.

Respectfully,

Steve Washburn
